SUMMARY

Construction project professional with two years delivering commercial tenant improvement and residential renovation projects as an assistant project manager and field supervisor. Built preliminary budgets and schedules, compared bids, approved submittals, and coordinated architects, engineers, MEP trades and subcontractors across up to 10 concurrent projects ($150K–$1.5M). Design degree from UC San Diego.

EXPERIENCE

Art Remodel Construction May 2026 – Present

Operations & Business Development Coordinator

- Consult with homeowners to define project requirements and scope for residential remodels.
- Prepare preliminary cost estimates and proposals outlining scope, budget and timeline for client approval.
- Serve as main point of contact for homeowners from first inquiry through proposal, managing all client communications.
- Designed and built the company website and Google Business Profile to present completed projects to prospective clients.

Antoon Construction Services April 2025 – January 2026

Assistant Project Manager

- Coordinated owners, architects, engineers, designers, MEP trades and subcontractors across **5–10 concurrent** commercial tenant improvement and residential remodel projects (**$150K–$1.5M**), keeping stakeholder objectives aligned from planning through construction.
- Built preliminary budgets and schedules in Excel and JobTread, and compared subcontractor bids and quotes to support award decisions.
- Reviewed and approved submittals, evaluating subcontractors' material and product options against client requirements.
- Prepared purchase orders and **change orders**, documenting scope revisions and tracking project costs against budget.
- Planned schedules, milestones and trade resourcing based on project needs, and prepared schedule reports in Excel and Word for ownership and clients.
- Tracked **RFIs**, submittals, drawing reviews and material deliveries across **100%** of active projects in JobTread.
- Coordinated all city and municipal inspections to keep projects code-compliant and on schedule.
- Developed and implemented standardized workflows for field teams and subcontractors, reducing rework and schedule delays by **10–15%**.

Vega General Construction September 2024 – April 2025

Field Supervisor

- Led day-to-day execution across **3–5 simultaneous** commercial tenant improvement and residential projects, sequencing trades including MEP and managing punch lists.
- Reviewed construction drawings against existing site conditions and submitted **RFIs** to the design team proposing layout and design changes.
- Analyzed **RFI** and **change-order** trends (**15–25 per project**) to flag design issues affecting schedule and cost.
- Validated field progress against contract scope before invoice approval, preventing overpayment to subcontractors.
- Managed vendors on pricing, delivery schedules and contract terms to reduce material delays.
- Translated drawings and specifications into clear direction for trade crews; enforced OSHA safety standards on all sites.

SKILLS

Planning & project controls: Scope definition, preliminary budgets and schedules, bid comparison, purchase orders and change orders, cost tracking, stakeholder coordination, drawing review, RFIs and submittals, inspections

Software: JobTread, Bluebeam Revu, AutoCAD, Revit, Microsoft Excel, Word, PowerPoint, SharePoint, Smartsheet, Jira

EDUCATION & CERTIFICATIONS

University of California, San Diego 2024

B.S. Cognitive Science, Specialization in Design & Interaction

OSHA 30-Hour Construction Safety Certification 2026

Procore Certification: Project Manager (Core Tools) 2026
